Further reading

World map showing time zones from the tz database version 2017a

Legend

UTC offsets (columns 6 and 7) are positive east of UTC and negative west of UTC. The *UTC DST offset* is different from the *UTC offset* for zones where [daylight saving time](#) is observed (see individual time zone pages for details). The UTC offsets are for the current or upcoming rules, and may have been different in the past.

The "Status" field means:

- Canonical - The primary, preferred zone name.
- Alias - An alternative name, which may fit better within a particular country.
- Deprecated - An older style name, left in the tz database for backwards compatibility, which should generally not be used.

List

Country code	Latitude, longitude ±DDMM(SS) ±DDDMM(SS)	TZ database name	Portion of country covered	Status	UTC offset ±hh:mm	UTC DST offset ±hh:mm	Notes

Number of zones / links by region

Region	Zones	Links	Total
Africa	19	35	54
America	130	36	166
Antarctica	10	2	12
Asia	76	22	98
Atlantic	9	3	12
Australia	12	11	23
Europe	46	17	63
Indian	8	3	11
Pacific	36	7	43
Etc	29	6	35
Other	11	33	44
Total	386	175	561

Notes

1. The [Asia/Kashgar](#) entry in the [tz database](#) reflected the use of [Xinjiang Time](#) by part of the local population. Consider using [Asia/Shanghai](#) for Beijing Time if that is preferred.
2. The [Europe/Simferopol](#) entry in the [tz database](#) includes the disputed 2014 transition from Ukraine Time to Moscow Time related to the [Annexation of Crimea by the Russian Federation](#). Consider using [Europe/Kiev](#) for Ukraine Time if you disagree with this position.
